In this course students will develop interdisciplinary works of art that engage both traditional and contemporary approaches through the use of new and evolving technology in artistic practice. Students will have the opportunity to express their personal vision and explore new venues and mediums to develop a cohesive body of work. There will be at least one required field trip that will take place outside of regular class hours.

Practicing Photography" Course Description: The course is devoted to looking at, responding to, and understanding student work in a variety of photographic forms. Among those approaches might be digital images, analog (film) photographs in color or black and white, alternative processes, documentary photography, studio photography, cell phone imagery, constructed images, or other means. This class emphasizes concepts, direction, and resolve in each student's photographic work.

This course investigates art and architectural monuments completed in late-Antiquity and the Middle Ages by Christian pilgrims or those seeking to accommodate the influx of pilgrims to a particular site. Students in this course will discuss, research, and write about medieval "pilgrimage art"--from its modest beginnings as earthen tokens, to Byzantine icons, to the grand sculptural portals that received pilgrims, as well as Islamic traditions of pilgrimage to Mecca.

Violence, in its manifold forms, has been a persistent phenomenon in the history of art since the Stone Age. In this graduate level seminar, students will explore violence and its representation in the visual arts through a series of case studies drawn from diverse cultures and time periods. In so doing, students will develop critical interpretative approaches to the subject, considering the various ways in which violence and art intersect, from artistic depictions of violence (e.g. interpersonal, gender-based, religious, institutional), to art as a form of violence and violence committed against art (iconoclasm).

BIOL 1010-900 is an ONLINE course offered through the ETSU Biological Sciences Department and requires a permit to register. Students will not be required to meet on campus or online at scheduled times. A distance learning laboratory kit (purchased separately) is mandatory; information for obtaining this kit will be provided by your instructor. For minimum system computer requirements and additional information, please go here: https://www.etsu.edu/onlinehelp/student_help/tech_resources.php (you will need to copy/paste the link). Please be advised that for the 900 section you will be responsible for watching/listening to lectures on D2L and completing assignments and assessments by the posted deadlines for each. You may be required to submit electronic photos and/or video recordings of yourself performing the home-based lab exercises and have at least one video conference with your instructor in order to receive full credit. Other requirements will be addressed by the instructor. Students wishing to attend a campus-based classroom section must enroll in another section of BIOL 1010. The lab portion is included in this course. You are not required to register for the BIOL 1011 co-requisite.

CJCR 2540-501 is a classroom-based section taught and delivered by Instructional Television. Students will attend classes in person on ETSU's main campus as scheduled. Recordings of each class session will be available via the course D2L page. Students wishing to stream the class live from home must enroll in CJCR 2540-990.

CJCR-2540-501	Criminal Law	82340	3	MWF	11:30 AM	12:25 PM	A012	202A	HOLDER	CJCR	40	45	-5	Y
CJCR-2540-901	Criminal Law	82343	3	TBA					COURSE ONLINE DALTON	CJCR	40	39	1	Y

CJCR 2540-990 is a live video streaming section. Students will log in to the live class using a computer at the same time CJCR 2540 section 501 is scheduled. For minimum computer system requirements and additional information please go to <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to come to main campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a classroom section must enroll in another section of CJCR 2540.

Special Topics: 3D Graphics Game Engine Development. Prerequisite: CSCI 2210. This course will introduce you to the fundamentals of low-level 3D graphics game engine development. By the end of this course, you should be able to create a simple game similar to Minecraft. Please contact Dr. Roach (roachj@etsu.edu) for more information.

Special Topics: Healthcare Information Technology. Prerequisite: Junior Standing or above. This course provides an introduction to Healthcare Information Technology (HIT) and health informatics. It surveys the following in the healthcare context: 1) interoperability and standards related to Electronic Health Record and Personal Health Record systems 2) confidentiality, privacy and security 3) data quality 4) clinical application management 5) IT governance and 6) IT's role in improving healthcare outcomes. Please contact Mr. Stephen Hendrix (hendrixs@etsu.edu) for more information.

Special Topics: Network Forensics and Protection. Prerequisite: CSCI 3400. Network forensics and protection is an in-depth, hands-on exploration of network protocols, deep packet analysis, and network intrusion detection and prevention. The course content explores common network protocols, such as IP, TCP, UDP, ICMP, SMB, HTTP/S and dives into packets' headers and payload analysis. The course culminates with the implementation of network-based intrusion detection and prevention system utilizing signature-based techniques with attack visualization, and remediation. Please contact Mr. Di Fabio (difabio@etsu.edu) for more information.

Special Topics: Healthcare Information Technology. Prerequisite: Junior Standing or above. This course provides an introduction to Healthcare Information Technology (HIT) and health informatics. It surveys the following in the healthcare context: 1) interoperability and standards related to Electronic Health Record and Personal Health Record systems 2) confidentiality, privacy and security 3) data quality 4) clinical application management 5) IT governance and 6) ITâ€™s role in improving healthcare outcomes. Please contact Mr. Stephen Hendrix (hendrixs@etsu.edu) for more information.

Special Topics: Network Forensics and Protection. Prerequisite: CSCI 3400. Network forensics and protection is an in-depth, hands-on exploration of network protocols, deep packet analysis, and network intrusion detection and prevention. The course content explores common network protocols, such as IP, TCP, UDP, ICMP, SMB, HTTP/S and dives into packetsâ€™ headers and payload analysis. The course culminates with the implementation of network-based intrusion detection and prevention system utilizing signature-based techniques with attack visualization, and remediation. Please contact Mr. Di Fabio (difabios@etsu.edu) for more information.

The study of film history has increasingly demanded a focus on the relationship between local and global contexts of cinema. Studying the local history of cinema production and reception, as well as how images of a particular location develop meaning, is important to understanding how cinema works in broader national and international spheres of circulation. Through studying film on a local level, we can better understand both the origins of cinema in a particular place and the continued relevance of film history more broadly -- as its beginnings reveal the ways in which films reflects and influences social, political, and cultural contexts. We will also consider how archives inform our understanding of media today, by looking at contemporary manifestations of the archive, such as YouTube, the uses of archival footage in fiction films and news, and the fake found footage film. Much of the work that goes into this kind of research requires archival expertise - the ability to sift through newspapers, film collections, web-based archives, etc. This course will provide both a theoretical framework for archival research, and practical experiences in engaging with archival materials.

This course will explore the convergence of twenty-first century narrative and technology. Weâ€™ll look at the ways in which the novel has enlarged and redefined its territory of representation and its range of technology and play, while maintaining its viability in the new media ecology. Through theories of cybernetics, weâ€™ll be analyzing the relationship between print texts and electronic media, including novels incorporating technology, films engaging the interface between human and machine, and digital storytelling. Weâ€™ll engage in media-specific analysis, which attends to the specificity of form as well as to citations and imitations of one medium in another, and finish the course by producing critical or creative technotexts that engage with the interface between written work and screen technologies.

The course covers both critical theories and specific productions of Shakespeare's plays during the twenty-year period, known variously as the Late Modern Age, the Inter-war Period, and even the Moribund Age. We will focus most closely on the relationship between historical events and Shakespearean productions such as Orson Welles' modernized Julius Caesar, subtitled Death of a Dictator, as well as his Voodoo Macbeth. The film versions we will consider include Max Reinhardt's and William Dieterle's A Midsummer Night's Dream (1935) and As You Like It (1936) directed in the UK by Paul Czinner.

ENTC 5640-995 is a WebEx Online Classroom based live video streaming section. Students will log in to the live class using a computer at the same time ENTC 5640-201 is scheduled. For minimum computer system requirements and additional information please go to <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). Please be advised that for the 995 section you may be required to come to main campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page.

EPID-5400-995 is an internet-based course intended for those in the regular College of Public Health MPH program only. If you are a PharmD or MD/MPH student you will need to register for EPID-5400-MPH instead, which requires permission from the instructor. Be sure to inform the instructor that you are a PharmD/MPH or MD/MPH student to be sure that you are permitted for the correct billable hours section of the course. Proctored exams will be required for all sections. For additional information, contact Dr. Claudia Kozinetz via e-mail at kozinetz@etsu.edu. For minimum computer system requirements and additional information please go to <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link).

EPID-5430-995 is an online course using WebEx Online Classroom and is available by permit approval of instructor. Students may log in to the live class using a computer at the same time EPID-5430-201 is scheduled, or view the archives after class. For minimum computer system requirements and additional information please go to <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). Please be advised that for the 995 section, proctored exams will be required. For additional information, contact Dr. Megan Quinn via quinnm@etsu.edu. Other requirements will be addressed by the professor. Students wishing to attend a classroom section must enroll in EPID-5430-201.

NOTE: MATH 1530-003 is recommended for students majoring in Biological or Health Sciences, pre-professional majors, for students in the Honors College, and for students who plan to take Biology I for majors interested in studying a general education course in a focused setting. A special textbook, Seier & Joplin (2011), Introduction to Statistics in a Biological Context, will be used. A permit must be recommended by the Department of Biological Sciences and entered by the Department of Mathematics and Statistics.

First 7 Week

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Instructor	Department	Max Enrollment	Actual Enrollment	Seats Left	Gradable
-----------	-------	-----	---------	------	------------	----------	----------	------	------------	------------	----------------	-------------------	------------	----------

NOTE: MATH 1710-FD1 meets the first seven weeks of the term(August 27-October 10) and has required in-person meetings twice per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom."

MATH-1710-FD1	Precalculus I (Algebra)	85134	3	TR	02:15 PM	03:35 PM	A012	209	MCGILL	MATH	45	30	15	Y

Second 7 Week

Course ID	Title	CRN	Credits	Days	Start Time	End Time	Building	Room	Instructor	Department	Max Enrollment	Actual Enrollment	Seats Left	Gradable
-----------	-------	-----	---------	------	------------	----------	----------	------	------------	------------	----------------	-------------------	------------	----------

NOTE: MATH 1720-FE1 meets the last seven weeks of the term (October 22-December 14) and has required in-person meetings once per week. This section has a substantial technology-based component. Students must have regular internet access. Examinations will be proctored at the Testing Center, on the first floor of the Sherrod Library. Students must do preparation work prior to each in-person meeting, including but not limited to reading materials, watching video lectures, and participating in online discussion boards. This is often known as a "flipped classroom." This section, along with MATH 1710-FD1, is ideal for students who want to take their entire precalculus sequence in one semester.

PMGT 5300 section 990 is a live video streaming section. Students will log in to the live class using a computer at the same time PMGT 5300 section 501 is scheduled. For minimum computer system requirements and additional information please go here: <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). Please be advised that for the 990 section you may be required to come to main campus for tests and presentations. Other requirements will be addressed by the professor. Recordings of each class session will be available via the course D2L page. Students wishing to attend a class-room section must enroll in another section of PMGT 5300.

SPED 3300-201 is a classroom-based section taught and delivered by Instructional Television. Students will attend classes in person at ETSU main campus as scheduled. Recordings of each class session will be available via the course D2L page. Students enrolled in SPED 3300 must also register for co-requisite SPED 4825. Students registered for this course are required to have a LiveText subscription. A LiveText subscription only needs to be purchased one time and can be used in all courses in which it is required (up to 5 years).

NOTE: SURV 3510 Sections 501 & 990 are synchronous on-campus and distance learning classes. The lecture portion of section 990 is a live video streaming section made available to students via Instructional Television. Students may log in to the live class using a computer at the same time SURV 3510 section 501 is scheduled. For minimum computer system requirements and additional information please go to <https://help.webex.com/docs/DOC-4748> (you will need to copy/paste the link). There is a lab associated with this class. Section 990 students will have to come to campus at the regularly scheduled time for exams and to perform lab assignments unless they identify and get approval for an affiliate to proctor the exams and lab assignments off-campus. Other requirements will be addressed by the professor. Contact Marian Young at mmclark@etsu.edu for questions or to make special arrangements.

SOWK 4957-998 Special Topics "Child Trama & Policy" Course Description: This course is synchronous, you will be required to logn every Thurs 6pm-8:50pm, this class can be accessed online. This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

SOWK 5957-801 Special Topics "Child Trama & Policy" Course Description: This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and Permanency for Children and Families. Although the course is designed to meet the needs of students planning to

work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.

SOWK 4957-996 Special Topics "Child Trama & Policy" Course Description: This course is synchronous, you will be required to logn every Thurs 6pm-8:50pm, this class can be accessed online. This is the first in a series of two child welfare courses. The course introduces students to knowledge of the child welfare system, describing the history, policies, and programs, both state and federal, pertinent to child maltreatment, intervention with families in crises, foster care and adoption services. It is intended to provide a foundation in the knowledge about policy and the values necessary for professional child welfare practice, as well, as preparing students for the second course in the series, Child Trauma & Welfare: Skills for Solutions and

Permanency for Children and Families. Although the course is designed to meet the needs of students planning to work in children's services, this elective may be taken by other undergraduate, and graduate, students who believe the content will enrich their preparation to work in other settings. The course objectives are designed to reflect the values, knowledge and skills of the social work profession and the guiding principles of the child welfare model.
