- ▶ I don't really feel one way or another about moving classes online. I feel comfortable with the way everything works.
- ▶ Dislike
- ▶ I personally don't really mind it, but it will be a little harder to keep up with everything.

- ▶ The same as everyother class.

## Question 5

Has the coronavirus COVID-19 impacted other aspects of your life (work, housing, etc.)? If so, tell me more.

### ▼ Collapse Responses

- ▶ It has impacted work a lot. My family owns 2 independent franchises, and I work for my family. I also live with my parents still. This means that as business slows down we aren't making as much, and it is getting a tad difficult to keep everyone afloat. But not so difficult that it is a problem. It's just scary to think we could lose what we've worked hard to create.

- ▶ Kids are out of school makes everything a little crazy in my household
- ▶ Yes, my mom has me locked up. I can only leave for certain things and I can't have friends over or anything because my dad can't get sick or else he won't be able to go to work. He works at TVA and they have considered keeping them at work night and day for 2 weeks so that's super different. Also church has been closed down so we have watched it on a live stream the past 2 weeks.
- ▶ It's definitely affected me in a more financial way as it has others. I've had my work close down for a couple weeks and my drill for the Army cancelled as well so i've been struggling a bit, but nothing I can't handle.
- ▶ I have had to move back home with my family. My job is affected and I may be without work soon. I have been very nervous about the impact this is having on everything around me.
- ▶ No
- ▶ No
- ▶ No not particularly.
- ▶ No not at all.
