Welcome to The ROOK

The ROOK is a new electronic newsletter for students enrolled in the Master of Professional studies program at East Tennessee State University. The purpose of this newsletter is to provide students with important information about the MPS program, graduate studies, and occasional MPS events. The Newsletter is named for a chess piece that is often considered more valuable than the bishop or the knight, and a strategically important piece in the game of chess. As such, we hope the MPS program will increase your value within the organizations you currently serve. Keeping you informed of university policies and events in part of our role in helping you grow professionally.
