Pre-PHARMACY

MEDICAL PROFESSIONS ADVISEMENT
PROGRAM GUIDE
2016-2017
The Pre-Pharmacy program of study at ETSU prepares students for application to a 3- or 4-year Doctor of Pharmacy (PharmD) degree program. Students may apply to some pharmacy schools after the successful completion of two years of undergraduate coursework. Completion of a bachelor’s degree, however, is strongly recommended.

Careers in Pharmacy
Pharmacists dispense prescription medications to patients and offer advice on their safe use. Some pharmacists who own a store or manage a chain pharmacy spend a considerable amount of time on business activities such as inventory management.

Pharmacists also take part in continuing education throughout their careers to keep up with the latest advances in pharmaceutical science. Pharmacists who work in universities or for pharmaceutical manufacturers are involved in researching and testing new medications.

With most drugs, pharmacists use standard dosages from pharmaceutical companies. Some pharmacists, however, create customized medications by mixing ingredients themselves through a process known as compounding.

The majority of pharmacists work in community pharmacies, but demand is increasing for pharmacists in a variety of occupational settings, including:

- academic pharmacy
- consultant pharmacy
- informatics
- managed care pharmacy
- federal pharmacy (military/public health setting)
- ambulatory care pharmacy
- hospital and institutional pharmacy
- pharmaceutical sciences

### Freshman
Complete pharmacy school prerequisite requirements.

### Summer
Build professional relationships with professors, advisors, and health care professionals for letters of recommendation.

### Sophomore
Community service / volunteer work / job shadowing / engagement in student organizations. Document experiences.

### Junior
Choose a major.

### Summer
Gain research experience.

### Senior
Campus visits to professional schools of interest

### Timeline
Collect letters of recommendation.

PCAT Exam

Application

Interviews

Pre-pharmacy is not a major. Therefore, you must choose a major (and minor, if appropriate) by the time you earn 60 credit hours. Pharmacy schools are interested in students who excel in the sciences and mathematics, but you do not have to major in these disciplines. Choose a major/minor that you enjoy and that plays to your strengths.

You must meet with your advisor each semester. You are required to meet with your pre-professional and major advisors each term before registering for the next. Students who receive scholarships or participate in specialized ETSU programs (such as athletics or Honors College programs) must also seek advisement from those departments. Serious consequences can occur if students fail to meet with advisors (e.g., failure to graduate on time, missing appropriate courses to prepare for the PCAT, etc.).
What does it take to get into pharmacy school?

Overall GPA

3.32

PCAT

62

average GPA for the 2015 entering class at the Bill Gatton College of Pharmacy

average composite PCAT score for the 2015 entering class at Gatton College of Pharmacy

Core Preparation Courses | Required by Gatton College of Pharmacy*
--- | ---
General Biology | 8 hours BIOL 1110/1111, 1120/1121
General Chemistry | 8 hours CHEM 1110/1111, CHEM 1120/1121
Organic Chemistry | 10 hours CHEM 2010/2011, CHEM 2020/2021
Physics | 4 hours PHYS 2010/2011
Microbiology | 4 hours HSCI 3320/3321
Communication | 6 hours ENGL 1010, Gen Ed Speech
Calculus | 4 hours MATH 1910
Probability and Statistics | 3 hours MATH 1530
Economics | 3 hours ECON 2210 or 2220
Social Sciences or Humanities | 9 hours
Additional writing-intensive or oral communication-intensive | 3 hours ENGL 1020 recommended
Elective (science recommended) | 3 hours

Additional Recommended Courses

Biochemistry | 5 hours BIOL 4147/4157 or 4167/4177
Human Anatomy | 4 hours HSCI 3000
Human Physiology | 4 hours HSCI 3020
Calculus II | 4 hours MATH 1920
Immunology | 3 hours HSCI 3540

*Different schools may have different prerequisite requirements. It is up to the student to research and ensure the required courses are completed before application to the preferred school(s) of interest.

Most pharmacy schools participate in the Pharmacy College Application Service (PharmCAS) at [http://www.pharmcas.org](http://www.pharmcas.org). An application will be completed through this service and will then be administered to the pharmacy school(s) of your choice. Most schools require a supplemental application that will be supplied by the school.

The application deadline is different for each school. It is important to be aware of the deadlines and submit your applications as early as possible. During the application process, most schools will require at least two letters of recommendation, one of which should be from a pharmacist. Therefore, it is important for you to establish a strong relationship with the person(s) you are shadowing.

Pre-Pharmacy Plus program

East Tennessee State University, in conjunction with Gatton College of Pharmacy, will offer a guaranteed interview and waiver of the supplemental application fee at the Gatton College of Pharmacy for any ETSU undergraduate or post-baccalaureate student who meets certain established eligibility criteria. For criteria and more information, visit [http://www.etsu.edu/cas/mpa](http://www.etsu.edu/cas/mpa).

Suggested two-year schedule for pre-pharmacy students

**Freshman**

Fall

CHEM 1110/1111
BIOL 1110/1111
MATH 1720/1910
ENGL 1010
PREH 1350

Spring

CHEM 1120/1121
BIOL 1120/1121
ENGL 1020
MATH 1530
ELECTIVE

**Sophomore**

Fall

CHEM 2010/2011
HSCI 3320/3321
SPCH* ELECTIVE ELECTIVE

Spring

CHEM 2020/2021
PHYS 2010/2011
ECON 2210 or 2220
ELECTIVE ELECTIVE

Students should maintain a minimum of 17-19 credit hours per semester.

* Consult your advisor before choosing a speech course.
What can I do now to strengthen my application to pharmacy school?

RELATED EXPERIENCE
Students are encouraged to explore the field of pharmacy either through employment or as a volunteer. Pharmacy schools want to know that a student has worked in the field, observed what is involved, and still has the desire to continue in that profession. Students should gain as much experience as possible without sacrificing grades.

EXTRACURRICULARS
The admissions committees of pharmacy schools are interested in seeing a range of extracurricular activities, especially those demanding a significant leadership role. Students should demonstrate their ability to balance full academic schedules with extracurricular involvement on and off campus and/or through employment opportunities. ETSU has many organizations that students can join. Students should visit the SORC located on the first floor of the Culp center or www.etsu.edu/sorc for more information regarding extracurricular activities. It is not sufficient to simply join an organization; you must demonstrate leadership qualities!

VOLUNTEER EXPERIENCE
Pharmacy schools are looking for candidates who express a commitment to community service. Students should seek volunteer projects that focus on giving back to the community, especially those related to pharmacy.

ONLINE ETIQUETTE
Please consider personal email addresses when corresponding with professional schools. First impressions are often based on correspondence and email addresses should be appropriate for professional communication. Messages and images sent electronically are reflections of judgment and potential suitability for professional careers. Inappropriate behaviors shared on an accessible venue can be viewed and shared by anyone, possibly compromising your admission to pharmacy school.

WATCH WHAT YOU POST!

Visit the American Association of Colleges of Pharmacy online to learn more about the profession and to view a full list of accredited schools.

Find the link for PharmCAS (the pharmacy school application portal) on the AACP site or visit the link directly if you are viewing an electronic version of this guide.
