These journals can be amended. If you want to see if a journal is indexed in PubMed, search under "Journals in NCBI Databases". [Jour] tells the system that you are searching for the phrase as a journal title. You may want to add additional titles to your current awareness search.

Abstract
The use of biological materials as templates for functional molecular a
the interface between chemistry, biology, and materials science. We
nanofiber films on β -sheet peptide domains assembled at the air/water
employed a recently discovered chemical process involving spontaneo
water-soluble $\text{Au}(\text{SCN})_4^{1-}$ upon anchoring to surface-displayed amine
interlinked network of crystalline Au nanofibers is readily formed upon

electrical conductivity, and displayed pronounced surface enhanced R
making the approach a promising avenue for construction of nano-stru
applications.
