Log in

To login to Dynamic Forms use our ITS created login page and sign in with your ETSU Username and Password.

https://etsupws.etsu.edu/DynamicForms

Welcome to Dynamic Forms

The User Interface

Dashboard

All of your forms are displayed with the following options:
**Note:** When a form is active and has submissions (Reject / Multi / Pending / Processed / Archived) the ‘Edit Form Template’ option is not available. To continue editing a form you will need to clear out all forms before the option to edit will be available.

### Multiple / Pending / Processed / Archived

**Signatures** - Shows users how many forms are at each stage of the process. The numbers in each column link users to a list of all submissions in each stage.

### Add New Form Template

- **Add New Form Template** - Users can start a new form

---

**Setting Up a New Form**

*Form Name/Type Page*

- **Name**: Training - 1
- **Description**: This form is being created for training purposes
- **Sign Requirements**: None
- **Send confirmation email?**: No
- **Show form timer?**: Yes
- **Use Recaptcha validation?**: No
- **Use Automatic Activation?**: No
Name

Description

Esign Requirements

- **None** – Will not require a user to login to fill out and submit the form.
- **Single-Signature** – Forces users to login to Dynamic Forms and sign the form electronically before submitting it.
- **Multi-Signature** – Allows users to apply a multi-signature work flow to a form. (This topic will be covered in our *Advanced Designer – Dynamic Forms* training.)

Show the form timer?

A logout timer set to 45min. displays on Dynamic Forms by default. Once a user has been inactive for 45 minutes, they will be logged out of Dynamic Forms. *We recommend leaving this set to “yes”.*

Use Recaptcha Validation?

Forces submitters to enter a security code before submitting. *Please leave this set to “yes” if your form does not require a login complete.* The will prevent robots from filling out your form.

Admin Notification Page

Allows users to set up custom emails to be sent to the form owner either at set intervals or each time a form has been submitted.
Single Sign On (SSO)

Allows users to set up custom SSO messages for submitters who did not login successfully. At the bottom of this tab is an option to set the owner notification emails to include SSO links to the forms. *Change this to “yes” for any forms that will be only internal to ETSU.*

Custom Text

**Inactive Text**

- This text displays when a user has been timed out of your form.

**Confirmation Text**

- This text will display when the submitter submits your form successfully.
Rules/Conditions

Rules/Conditions will be covered in our *Advanced Designer – Dynamic Forms* training.

## Building Your Form

Dynamic Forms has revised the form development process. Once a user creates a new form, they will be taken to the form’s configuration page. The forms configuration page now includes the form designer.

### Add New Form Item

After clicking on Add Item you are presented with the following options:
Table

Tables can be added to the form for greater formatting flexibility. You have full control over the number of rows and columns in a table.

Long Answer

This provides an area where a user can type in a block of information. A text area field displays as:

The text area allows the user to input a lot of textual information

Long Answer – Advanced Options

Settings for TextArea1

Maximum Length

Prefill from API?

Short Answer

These are used to display text and to accept text entry from users. A text box displays as:
Short Answer – Advanced Options

Settings for TextBox1

Field Type: Generic Answer

Minimum Length: 
Maximum Length: 

Choice List

These are used to display a list of specific options that a user can select from when completing an online form. A drop-down list displays as:
### Settings for DropDownList1

**Default entry text**
- -- Please Select --
- -- Choose --
- (blank)
- Other

**Include in library?** Yes
**Active?** Yes

<table>
<thead>
<tr>
<th>Value</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>R</td>
<td>Red</td>
</tr>
<tr>
<td>G</td>
<td>Green</td>
</tr>
<tr>
<td>Y</td>
<td>Yellow</td>
</tr>
<tr>
<td>b</td>
<td>Blue</td>
</tr>
</tbody>
</table>
Check Box
This element can be turned on or off using a mouse click. Note: You cannot make a check box field required on a form. A check box displays as:

Text and HTML
This item is used to display written instructions or information to the user who will complete the online form
Image
This is used to add images/logos to a form.

Master Item
This allows you to select from Master Items such as State drop down list. There is a currently a somewhat short list of items which have not been modified for our school. **We recommend that you do not use these currently.**

File Upload
This allows you to add field so users can attach files to a form.

Save Your Form Item
Once you have chosen an item and entered in the options specific to that item, the following page asks you to name your item. This page contains a drop down menu with listing existing form item names for your department. Finally, there is a require this item option.
Rearranging Form Items

To rearrange form items, make sure that you are on the form designer view, click on the item that you would like move and drag it to the new position on the form.

Preview Form in Progress

Either to preview your form while you are building it click the Preview form as PDF or the Preview Form in Browser button located above the Form Designer window.

Once you are satisfied with your form, click the home button to return to your department folder.

Publishing Your Form

To publish your form you must first click the Activate the Form button in the action panel on the right side of the form in the dashboard.
Next you will click the URL button in the action panel on the right side of the form in the dashboard. This will open up a window containing your URL.

If this form is **not** internal, you can copy and paste this form URL into a hyperlink where you would like this form to be accessed from, or send it to the web team to be added as an iframe into a page on your website.

If this form **is** internal you will need to add the following url sting to the beginning of the URL generated by dynamic forms before sharing or posting this link to your website.

```
https://etsupws.etsu.edu/DynamicForms?targetURL=
```
Accessing Form Responses

Once your form has a submission you can access the submissions from the dashboard by clicking on the numbers in the appropriate column to the right of your form name.

From this menu, you can scroll through all submission entries in a table view.

You can also view a pdf or html version of each completed form by clicking on the corresponding icon to the left of the submission you would like to view.

You can also export all form submissions to an excel file by clicking on the Export to Excel button located on the top right corner of the submissions table.
