NRSE 4062 Practicum

A video will be available regarding the practicum (located in Course Content) the semester you take the Practicum.

The Practicum is comprised of two parts:

1) Leadership Change Project  
   a. Can be done at your place of employment  
   b. Work on it solo  
   c. Can be a written report, PowerPoint, Video, Poster that can be presented at a conference or hospital workshop

2) Clinical (bedside)  
   a. IF you have worked as an RN for less than ONE year – must submit a Clinical Evaluation Form (made available to you at the beginning of the semester through course content of D2L) of competencies that must be achieved with your employer during the semester you are enrolled.  
   b. IF you are not working as a RN yet – You will have a clinical preceptor who you will work with to complete the list of competencies listed on the Employer Competency Form, in the 60 hours of the bedside clinical portion of the practicum.  
   c. IF you have been a practicing RN for a year or longer when the semester starts, your supervisor will complete the Employer Competency Form which you then submit to the course drop box.
