Considerations:

- Grant proposals submitted in one fiscal year are not always awarded in the same fiscal year. Therefore direct comparisons should not be made between the number of proposals submitted and the number of awards received in a given fiscal year, nor the amount requested and the amount received.
- Some of the awards listed as State-funded also have Federal money as part of the total award. For these particular awards, each is specified in the State section with the State dollar amount; the portion of the amount from the Federal agency flowing through the State is included in the lump sum amount listed as “Federal flow-through money”.

For instance, the Bureau of TennCare, a State agency, awarded two grants totaling \$8,714,875. As shown in Section 4, page 14, of this report, the State-awarded portion of this amount is \$3,113,472.50, and the Federal flow-through amount calculated into the “Federal flow-through money” total, shown as the last list-item in the Federal listings, is \$5,601,402.50.
