This Promotion and Tenure Policy consists of a series of steps involving Chair and faculty members determining annual areas of priority, setting goals and objectives accordingly. The following describes the process:

1. Based on individual, department, college, and university goals, the faculty member and Chair prioritize the areas of emphasis, teaching, research and service, for the faculty member at the beginning of the academic year. This ranking will determine the faculty member’s level of effort for each area.

2. Once the areas of emphasis are ranked, the faculty member will then establish goals and objectives for each area. The faculty member may use one of the suggested activities to enhance the various areas and/or other activities that may be negotiated with the Chair. These activities are then stated in the faculty member’s Faculty Activity Plan for the Chair’s approval.

3. The faculty member will then report their progress in their Faculty Activity Report. The Chair will rate their efforts as:

   Unsatisfactory - failed to make significant progress toward goal
   Progression – made significant progress toward goal
   Achievement – achieved goal

The evaluations are to be viewed both separately and collectively. Separately, the reports indicate the annual achievements of the faculty member in meeting their priority-based tasks. Collectively, the evaluations reflect a faculty member’s potential and achievements in teaching, research, and service.

**TENURE**

An amalgamation of progression and achievement ratings are expected for tenure, with considerable weighting placed on areas ranked first in priority.

**PROMOTION**

A rating of achievement in the majority of areas ranked first priority is expected for promotion.

Faculty Member and Chair
Sets goals, priority areas
Chair approves FAP

Faculty Member establishes goals and objectives for each area based on its ranking.

Faculty Member reports their progress in Faculty Activity Report.
Chair rates the activities of each area of the report. The activities will be scored as either unsatisfactory, progression, or achievement. The area’s ranking will be heavily considered in this evaluation.
