Gold Ship Records is a fully staffed independent record label headquartered in Bristol, TN.

Not your typical label, Gold Ship Records values originality over all else, with a roster that blends styles, transcends genres, and leaves the archaic models of labels in the dust. Our goal is to build our artists, both individually and as a family, and garner them the attention they deserve.

Here to push the boundaries, and further the horizon, we're looking for passionate, driven interns to assist in the expansion of operations.

Do you understand how to turn your dreams into reality? Are you passionate, self-motivated, committed and driven, with an entrepreneurial spirit? Do you tackle challenges with resourceful innovation and a forward-thinking nature? Do you feel at home in project-based environments that require a keen-eye for details and the ability to juggle multiple tasks?

At Gold Ship Records, we do more than embrace these qualities, we hone them.

Our interns are not coffee-runners; they're hands-on professionals-in-training, who must be capable of completing tasks accurately and on-time.

**Responsibilities:**
- Assisting in creating digital marketing assets, marketing ad pack settlements and invoice processing
- Support marketing and press department in daily activities
- Coordinating and assisting with street team development and activities
- Supporting and executing special projects as assigned by core team members
- Conducting artist research for both press and booking inquiries

**Qualifications:**
- Be at least 18 years of age, with access to a personal vehicle, and a ready commitment to 15 hours per week
- Currently enrolled in an accredited university, or possess relevant background experience (marketing, communications, business, music, and other related fields preferred)
- Must have an avid passion in music, be knowledgeable about artists and genre, and possess a strong interest in learning about the music industry from the ground-up.
- Must have an active knowledge and participation in social media networks and their tools (web development a plus)
