Phlebotomy Certification Program

The Phlebotomy Course
The Phlebotomy Certification Program is a live course that meets two times a week for 16 sessions. In order to avoid flooding the market with phlebotomists, this course is limited to 15 people.

Waiting List
When the next course date is set, ALL people on the waiting list will receive an email with directions to fill out the application and get a background check completed. Once that information is received by the Office of Professional Development, it will be reviewed and the first 15 applications that are approved will be accepted into the Phlebotomy Certification Training Program. Payment will be due at this time.

To have your name added to the waiting list, click here.

Registration
The registration fee is $800, payable at the time of registration. This course is limited to 15 participants and no space is guaranteed until tuition is paid and all complete paperwork, with a background check, is returned. There will be no refunds for this program once the participant is accepted and fees are paid.

Clinical Rotations
Once the participant completes the course satisfactorily, a clinical site will be assigned. Clinical hours will be 120 hours over a three week period. Shifts are determined by the site, not the participant or the ETSU Office of Professional Development. Most are early morning, or all-night, shifts. We do not guarantee a clinical rotation placement; however, every effort will be made to place each participant completing the course satisfactorily.
