

ETSU Educational Talent Search Transportation Notice

ETSU Educational Talent Search is an optional extracurricular activity. During the school year, ETSU Talent Search participants can participate in cultural/career trips and college visits.

ETSU Educational Talent Search program staff will only supervise students during scheduled event times and will not coordinate or verify student transportation to and/or from pick-up and drop-off locations listed on the field trip parent letter.

If a student wants to ride with a family member other than parent/guardian or friend or if a student wants to drive to and from a Talent Search event it is the student's responsibility to get permission from the parent. It is the parent's responsibility to coordinate and/or verify any of these alternative transportation arrangements.

Students who attend Talent Search events are expected to stay from the beginning to the end of the event.

When students are released from ETSU Talent Search events (for example, when they exit the bus or leave from a workshop), they are no longer under the care and supervision of ETSU Talent Search staff. However, a Talent Search staff member will remain at the designated event locations until the last student has departed.

Please call our office (423-392-8041) if you have any questions.
