The Bachelor of Science in Interdisciplinary Studies (BSIS) meets the needs of students whose academic interests are situated between two or more disciplines and gives students the opportunity to integrate personal and professional growth by means of the exploration of multiple subjects, perspectives, and methodologies in a variety of fields. Because the BSIS program can be completed entirely online or through a combination of online and on-campus courses, it is especially suited for students whose work-life situation requires more flexible scheduling. The BSIS program emphasizes maximum

flexibility; students may attend on-ground, online, or in either mode as needed.
Students enrolled in the BSIS program may not double-major at ETSU.
