

CaRDS Seminar

Innovation and Inspiration –

A Seminar in Honor of Dr. Debra Knisley

The ETSU CaRDS (Computation and Research in Data Science) Institute is pleased to announce, as its first seminar in the new academic year, an event dedicated to Debra Knisley, the founder of CaRDS. The seminar will highlight her achievements and their lasting impact on the ETSU Department of Mathematics and Statistics, and specifically recognize her contribution to establishing data science on the ETSU campus.

The program will feature a presentation by **Dr. Edmon Begoli**, Director of the Center for AI Security Research (CAISER) at Oak Ridge National Laboratory (ORNL). Tributes by colleagues and collaborators will include testimonials by **Dr. Anant Godbole**, former chair of the Department of Mathematics and Statistics, **Dr. Chris Wallace**, previous faculty member of the Department of Computer Science, and **Dr. Samuel Kakraba**, faculty member of the Department of Biostatistics and Data Science at Tulane University, and previous graduate student of Dr. Knisley.

Refreshments will be served after the seminar.

When? Thursday, September 26 at 2.00 pm

Where? Reece Museum, Multiple Purpose Room
