CAD Camps

- TBD

Advanced Code & Tech Camps are 5-day code & technology camps (9:00 am—3:00 pm), for students who participated in previous code and technology camps.

AP Computer Science Prep Week are 5-day camps code & technology camps to help prepare students to complete the AP Computer Science Exams. If a student passes the prep exam, we will cover the AP Exam.

CAD Camps are 5-day camps (9:00 am—3:00 pm), for students who wish to use a computer system to design different real world objects.

GIST Camps are week-long, half-day camps (8:15am — 11:45am) that allow rising fifth and sixth grade girls to explore STEM related activities.

First Year Code & Tech Camps are 5-day code & technology camps (9:00 am—3:00 pm), for students who have little or no exposure to computers or technology.

Dates listed are tentative and camps may be added or removed.
