

School Librarianship: Employer Satisfaction

2022-2023

The satisfaction of employers is evaluated using an EPP created Employer Survey in Qualtrics. The survey was presented in 2023. It was sent to supervisors who hired a prior candidate in the School Librarianship program. Only two supervisors responded this year, providing the highest rating of 4 on 14 out of 24 indicators and target score of 3 on 10 out of 24 indicators (see examples below). The employers supervised completers who were working as librarians in their buildings. On a rating of 12 questions, supervisors strongly agreed that students were highly prepared to:

- Advance students reading, motivation, and progress in critical thinking, research, and creative endeavors
- Develop and facilitate equal access to print and digital collection for self-directed and collaborative interactions
- Communicate with others to develop a strong library program
- Uses a range of learning and technology tools to access, interpret, and evaluate information and advocate for the profession
- And eight others

The average was thus 3.6 on a 4.0 scale.
