

School Librarianship

2024-2025: Educator Disposition Assessment (EDA)

Studies have revealed educator dispositions -- traits and beliefs that guide thoughts, actions, and character – are just as, if not more, important as knowledge and skill within classroom settings. For this reason, a key assessment in the School Librarianship Program is the Educator Disposition Assessment developed by Educational Dispositional Consultants, LLC. The assessment can be self or instructor driven.

- Fall 2024 - Spring 2025– average score (maximum a 4) – 4.0
