

School Librarianship: Employer Satisfaction

2024-2025

The satisfaction of employers is evaluated using an EPP created Employer Survey in Qualtrics. The survey was presented in 2025. It was sent to supervisors who hired a prior candidate in the School Librarianship program. Fifteen supervisors responded this year, agreeing or disagreeing to twelve indicators of success. All supervisors agreed in the affirmative (success was accomplished) in 180 out of 180 incidences. (See examples of indicators below). The employers supervised completers who were working as librarians in their buildings. On a rating of 12 questions, supervisors strongly agreed or agreed that students were highly prepared to:

- Advance students reading, motivation, and progress in critical thinking, research, and creative endeavors
- Develop and facilitate equal access to print and digital collection for self-directed and collaborative interactions
- Communicate with others to develop a strong library program
- Uses a range of learning and technology tools to access, interpret, and evaluate information and advocate for the profession
- And eight others

The rate of satisfaction was therefore 100%.
