Please provide any additional information about or descriptions of the supervised clinical experiences:

Students in Clemmer College of Education and Human Development at East Tennessee State University can begin clinical experiences as early as their freshman year. Prior to Residency, students attend a variety of clinical placements during their programs, and placements can range from approximately 40 to 160 hours, dependent upon content and course expectations. For the final year, Clemmer College of Education and Human Development implements a yearlong Residency program that places teacher candidates in the schools for an increased number of clinical hours in Residency. Candidates stay with the same mentor from Pre-residency through Residency I and into Residency II, the traditional student teaching semester. The collection of data for the Residency year has been facilitated by the use of Student Learning and Licensure Software, a program that tracks candidates, mentors, placements, and summative assessments. Residency Descriptions: A. Pre-Residency: Pre-Residency teacher candidates meet and work with their mentor teachers in partner school systems at the beginning of the school year, prior to Residency I. Pre-Residency includes a 50-hour field component along with additional coursework. B. Residency I: After completing Pre-residency, teacher candidates continue with their mentor teachers in Residency I. Residency I candidates learn school and classroom demographics, policies and procedures and the structure of the academic day. Additionally, candidates become familiar with the curriculum and academic expectations of the students and setting. The field component Residency I is 135 hours. Candidates of Residency I complete lesson plans and observations by their mentor teacher and ETSU supervisor, and candidates begin working on their edTPA. C. Residency II: The final placement for teacher candidates, Residency II, is a minimum of 15 full weeks of observation, teaching, and co-teaching. This semester includes placement in two different settings and equates to 562.5 hours of clinical experience. (Teacher candidates are held to high standards in their year-long residency and are evaluated on the Tennessee Educator Acceleration Model (TEAM).) Tennessee became one of the first states to implement this comprehensive, student outcome based, state-wide educator evaluation system. In order to prepare teacher candidates to match the needs of Tennessee's schools, this tool (including rubrics across 18 domains) is incorporated into the assessment plan of our educator preparation programs. The TEAM evaluation consists of frequent observations, use of student data, professional development, and constructive feedback for teacher candidates across multiple classroom/teaching observations. Additionally, each teacher candidate completes the edTPA, a performance-based, subject-specific assessment to measure and support the skills, knowledge, and effectiveness that teachers must display in the classroom. The edTPA requires each teacher candidate to collect student performance data, display the data in the form of charts and graphs, and analyze the data in detailed commentary, which outlines steps to improve learning and teaching. Teacher candidates video record a series of learning segments as part of this evaluation and analyze their teaching to determine the impact on K-12 students.

Enrollment and Program Completers

In each of the following categories, provide the total number of individuals enrolled in teacher preparation programs for an initial teaching credential and the subset of individuals enrolled who also completed the program during the academic year.

Race/Ethnicity	Total Enrolled	Subset of Program Completers
No Race/Ethnicity Reported	3	1

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980, with revisions occurring in 1985, 1990, and 2000 (<https://nces.ed.gov/ipeds/cipcode/Default.aspx?y=55>).

Teachers Prepared by Academic Major

Please provide the number of teachers prepared by academic major for academic year 2023-24. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends.

☒ Yes

☐ No

2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom.

☒ Yes

☐ No

3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects.

☒ Yes

☐ No

☐ Program does not prepare special education teachers

4. Prospective general education teachers are prepared to provide instruction to students with disabilities.

☒ Yes

☐ No

5. Prospective general education teachers are prepared to provide instruction to limited English proficient students.

☒ Yes

☐ No

6. Prospective general education teachers are prepared to provide instruction to students from low-income families.

☒ Yes

☐ No

7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable.

☒ Yes

☐ No

8. Describe your institution’s most successful strategies in meeting the assurances listed above:

Educator preparation programs in the Clemmer College of Education and Human Development at ETSU integrate evidence-based instructional strategies and the academic standards adopted by the Tennessee State Board of Education. All licensure programs are aligned with the literacy standards adopted by the Tennessee State Board of Education. Program alignment has been reviewed and approved by the state. Students seeking licensure are required to complete courses that assist them in acquiring the knowledge and skills needed to function well as educators in a changing and diverse society. These courses allow students to gain an understanding of learners and learning processes; knowledge of professional, ethical, and legal issues affecting educators; and the human relations skills needed to work effectively with individuals with disabilities in both professional and community roles. Teacher candidates participate in field experiences in a variety of settings (both urban and rural) across northeast Tennessee, as well

as a year-long clinical residency in a public school setting. Courses throughout all educator preparation programs in the Clemmer College of Education and Human Development focus on differentiation of instruction to meet the individual needs of all students. Coursework and field experiences highlight the strategies for tailoring instruction to meeting individual needs through differentiation of academic content, process, products, and the learning environment. Research-based strategies for addressing the needs of English-language learners are embedded throughout the educator preparation program. Candidates are expected to make use of ongoing assessment and flexible grouping in order to ensure success of all children. Additionally, all teacher candidates complete at least one course in the area of special education, which provides a survey of various disabilities, special education history, legislation, diversity, causes, characteristics, educational strengths, interventions, assistive technology, assessment, and support services for individuals with disabilities and their families. Field and clinical placements are tracked for candidate experience with diverse populations (i.e., race/ethnicity, low economic status, English as a second language, disabilities) to ensure that our candidates not only are learning about working with students with diverse backgrounds and characteristics in their coursework, but that they also are having hands-on experience with these types of learners.

Annual Goals: Mathematics

Each institution of higher education (IHE) that conducts a traditional teacher preparation program (including programs that offer any ongoing professional development programs) or alternative route teacher preparation program, and that enrolls students receiving Federal assistance under this Act, shall set annual quantifiable goals for increasing the number of prospective teachers trained in teacher shortage areas designated by the Secretary or by the state educational agency, including mathematics, science, special education, and instruction of limited English proficient students.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. [\(§205\(a\)\(1\)\(B\)\)](#)

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact RTI's Title II Support Center and your testing company representative.

Use of Technology

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(\\$205\(a\)\(1\)\(F\)\)](#)

Does your program prepare teachers to:

a. integrate technology effectively into curricula and instruction

☒ Yes

☐ No

b. use technology effectively to collect data to improve teaching and learning

☒ Yes

☐ No

c. use technology effectively to manage data to improve teaching and learning

☒ Yes

☐ No

d. use technology effectively to analyze data to improve teaching and learning

☒ Yes

☐ No

2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place.

Candidates in teacher preparation programs are required to successfully complete a program-specific course in instructional technology prior to their residency year. The coursework includes the development of student-centered, technology integrated activities and assessments in traditional and virtual environments, as well as the use of applications to collect, analyze, and present student performance data. Mastery of these skills is demonstrated in the capstone project of their residency year (edTPA) which requires candidates to teach technology integrated lessons, collect student performance data, display that data in the form of charts and graphs, and reflect on the analysis of the data to improve teaching and learning. Candidates also use video recordings of their practice to reflect on their development and determine the impact on student learning to help plan for future lessons. All teacher candidates are evaluated on their technology skills during the residency year as part of their lesson planning and teaching skill assessment requirements.

Teacher Training

1. Provide a description of the activities that prepare general education teachers to:

a. Teach students with disabilities effectively

Students preparing as general education teachers enroll in program specific courses designed to enhance their knowledge about special education and individuals with disabilities. Major topics include a history and overview of special education in the United States, laws associated with special education, individualized education programming, family and professional partnerships, and diversity in education. Students preparing as physical education teachers also examine the areas of adapted physical education, adapted sports, and related areas of intervention and special education. Upon successful completion of these courses, students are able to: •Analyze current legislation pertaining to special education, including service delivery options, assessment procedures, development of individualized educational programs, and safeguards for parents and teachers • Assess and evaluate the importance of language and cultural differences on the academic, emotional, and social development of students with disabilities. • Ascertain the contributions of families and caregivers in the education of students with exceptionalities. • Evaluate professionals that provide special education or related services • Demonstrate knowledge of the relationship of special education to other educational programs/professionals. Students preparing as physical education teachers are also able to: •Identify individual needs based on the status of perceptual-motor behavior and developmental levels •Be familiar with terminology used in adapted physical education and adapted sports •Possess general knowledge about ability levels of persons with disabilities

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

General education students taking SPED 2300, Exceptional Learners in Schools and Communities, or SPED 5500, History, Issues and Trends in Educating Exceptional Learners, analyze and synthesize current legislation pertaining to special education, including service delivery options, assessment procedures, development of individualized educational programs, and safeguards for parents and teachers. Students in the physical education program take PEXS 4250, Adapted Physical Education: a study of the legal, medical, and educational bases for physical activity programs for individuals with disabilities, with emphasis on evaluation, placement, and instruction.

c. Effectively teach students who are limited English proficient.

Through participation in program specific courses, students preparing as general education teachers gain an understanding of the importance of language and cultural differences on the academic, emotional, and social development of students, including those with disabilities.

2. Does your program prepare special education teachers?

- ☒ Yes
- ☐ No

If yes, provide a description of the activities that prepare *special education teachers* to:

a. Teach students with disabilities effectively

All special education teachers complete a carefully designed sequence of courses in evidence- and researched-based methods for teaching students

with disabilities. The coursework addresses the Council for Exceptional Children's standards for Initial Special Education Teacher Preparation and other state specified standards.

b. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*.

Special education teachers complete coursework that includes training for the development of individualized education programs for K-12 learners with a variety of exceptional learning needs through use of various methods and materials used to assess student performance to aid in the development of measurable goals, objectives, accommodations, and modifications that are in accordance with due process and the laws of the Individuals with Disabilities Education Improvement Act, IDEIA (2004).

c. Effectively teach students who are limited English proficient.

Culturally responsive teaching strategies are integrated across the candidates' program of study to prepare the candidates for working with diverse populations. One requirement of the special education program is successful completion the edTPA, a nationally normed performance assessment that requires teacher candidates to plan, teach, and assess all students, including those with English language proficiency challenges and disabilities.

Contextual Information

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The Elementary Education program continues to implement the program that was redesigned in fall 2021 to offer candidates an option to earn ESL licensure to accompany their elementary license. Upon completion of requirements outlined in state policy, candidates have the option to earn a K-5/ESL dual license or a K-5 initial license with an ESL add-on endorsement. ESL continues to be a high-need endorsement area in the state. Candidates continue to learn relevant content and pedagogy related to elementary education with embedded support for ESL. As a result of having content and pedagogical knowledge in both elementary and ESL, our candidates fill needs within our partnering districts as they are hired and begin their teaching careers. The Elementary Education K-5 program continues to offer courses to provide students with additional opportunities to explore the content knowledge of elementary subjects using a culturally responsive framework. Courses include CUA1 3100, Teaching Elementary Mathematics to Diverse Learners; CUA1 3200, Content & Curriculum for Elementary Social Studies; READ 3300, Foundations of Language and Literacy; READ 3400, Application of Literacy in Elementary Classrooms; READ 3500, Differentiated Language and Literacy Instruction; READ 4300, Language and Literacy Instruction in Diverse Classrooms and SCED 3100, Elementary Science: Context and Community. Program faculty continue to revise these courses after offering them for the past two years based on student feedback and requirements from the state. In addition, program faculty continue to monitor how these new courses impact students’ scores on the Praxis Content Knowledge and Teaching Reading exams.
