Joining Forces

• National initiative to mobilize medical school integrated missions in education, research, and clinical care to train our nation's physicians to meet the health care needs of the military and their families

• Over 100 schools including QCOM currently participate
Joining Forces Pledge

• Enrich medical education to ensure that current and future physicians are trained in the unique clinical challenges and best practices associated with caring for military service members, veterans, and their families;

• Disseminate up-to-date diagnostic and therapeutic information as it relates to traumatic brain injury (TBI) and psychological health conditions, such as post-traumatic stress disorder (PTSD);

• Grow the body of knowledge leading to improvements in health care and wellness for our military service members, veterans, and their families;

• Join with others to further strengthen the supportive community of physicians, institutions, and health care providers dedicated to improving the health of military service members, veterans, and their families.
Current Curricular Content

- Medical Human Gross Anatomy and Embryology – Traumatic Brain Injury
