

RADIOLOGIC SCIENCE PROGRAM OBSERVATION HOURS & CLINIC CONTACT INFORMATION

Please review the following requirements and information about observation hours.

- Students are **required** to obtain **8 hours** of observation no sooner than 6 months prior to the application due date (i.e. October 1st - March 1st). Please see the [observation hours log](#) for keeping up with hours and instructions on how to turn them in when they are due.
- Students can get up to 18 observation hours, and receive 10 extra points towards their application. The extra 10 observation hours must be obtained at a different facility than the original required 8 hours.
- Students **must** get their observation hours at a hospital.
- Students who use a Ballad Health Facility for their observation hours need to contact one of the sponsors/hosts listed on the follow page for permission to observe them **prior** to filling out the [Ballad Health Observation Application](#). The application requires students to list their sponsor/host. Please review the [observation requirements](#) listed on the Ballad Health website. If a student is not planning to observe at a Ballad Health Facility, they will still need to reach out to the contact to obtain permission to observe, and to find out if any additional paperwork needs to be filled out for that facility.
- Students who are from out of state or a different area of TN, observation hours still need to be obtained at a hospital. The facility will need to be approved by the program director Ms. Erica O'Quinn, her email is oquinne@etsu.edu.
- Students need to submit their observation hours log form on or before March 15th. Students can hand deliver observation hours log to Ms. Erica O'Quinn in Lamb Hall 4th floor vestibule 463 office 466, Box 70573, or students can email their log to Ms. Elizabeth Musick at musicke@etsu.edu.
