

Zoom

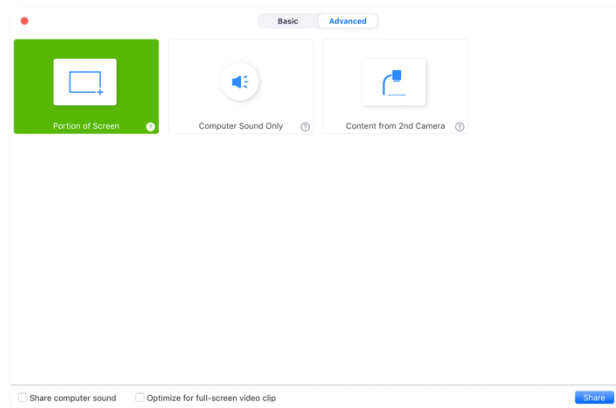

Share Only a Portion of Your Screen

While in a meeting:

1. Click the **Share** button at the bottom of the meeting window.

2. The sharing options window will open. Select **Advanced** at the top of the window. Select **Portion of Screen**.

3. Click the blue **Share** button at the bottom right of the share options window to begin sharing your screen.

4. An area smaller than your screen will appear with a green border. Any content or window that resides within that green border will be shared with your meeting participants.

**To resize the shared window, simply click and drag the perimeter of the green border.*
