I would like to recognize all the Lead Workers of our Custodial Department. They lead our team on a daily basis to maintain our campus at a level we all are proud of. Day after day they deal with different situations but they always achieve the same outcome. All of these individuals provide the university with the most important qualities of an employee on a daily basis, which are pride and passion in their work. I am very proud to work with a group of individuals that are so dedicated to their profession. They have risen to the occasion time after time to ensure all buildings are ready in spite of floods, snow storms or any other challenge. Each and every one of these lead workers is an asset to our university.
