

Technology Allowance Release Form

GCOP's Computer & Handheld Technology Requirement: All student pharmacists are required to have a personal Apple or Windows based laptop along with an additional mobile device (tablet, cellphone) with a working camera and microphone. Devices must be appropriately configured to be compatible with ETSU network facilities, Examplify, Desire2Learn (D2L), Examsoft, course management software and Zoom. Fourth-year students are required to have a smartphone or similar device for use during APPEs. The college does not specify the type of device you must purchase; however, the device must be able to run Lexi-Comp drug and clinical information software as this is the required textbook for the fourth-year.

Students wishing to purchase these requirements may have the cost included in their educational budget for student financial aid purposes. The maximum lifetime allowance is \$2,000. Proper documentation must be provided to the Office of Financial Aid along with a signed Technology Allowance Release form and a detailed sales receipt with date of purchase that must fall within reasonable dates of their educational budget and a description of the equipment.
