COLLEGE of PHARMACY
EAST TENNESSEE STATE UNIVERSITY

PGY1 COMMUNITY PHARMACY RESIDENCY PROGRAM

Overview:

The East Tennessee State University (ETSU) Bill Gatton College of Pharmacy (BGCOP) is seeking applicants for a 12-month PGY1 community pharmacy residency. Our program is designed to prepare community-based pharmacist practitioners as leaders and innovators through unique practice experiences, with the hope of elevating pharmacy practice and overall healthcare both in our region and nationally.

Program Description:

The clinical practice site will be Boone Drug and Healthcare in Boone, NC. Boone Drug, Inc. consists of 17 independent community pharmacies, including a specialty pharmacy, two long-term care pharmacy sites, and multiple collaborative practice sites in the surrounding region. Boone Drug participates in North Carolina's Community Pharmacy Enhanced Services Network (CPESN) to address the needs of patients with complex, chronic conditions. Additional innovative clinical services offered by the site include: transitional care programs, clinical medication synchronization, collaborative practice under a Clinical Pharmacist Provider (CPP) embedded in local provider offices, medication therapy management (MTM), immunizations, compounding, point-of-care testing, and other health and wellness services. The resident will broaden clinical knowledge through active participation in patient care and interactions with experienced preceptors at the site. Additionally, the resident will play a key role in the implementation, expansion, and enhancement of services.

QUALIFICATIONS:

GRADUATE OF AN
ACCREDITED COLLEGE OR
SCHOOL OF PHARMACY

ELIGIBLE FOR LICENSURE IN
NORTH CAROLINA

SALARY: \$43,000

Additional Information:

Other resident opportunities include: precepting pharmacy students at the practice site and during outreach events; participating in a Teaching and Learning Certificate program through the BGCOP; staffing requirements; and conducting a practice-based research project along with submission of a manuscript for publication. The program also provides other opportunities to hone professional presentation and teaching skills. The resident will join a group of residents and fellows affiliated with the College, allowing for collaboration, support, and encouragement throughout the residency year.

Bill Gatton College of Pharmacy:

The College is located on the Mountain Home Veterans Affairs campus and is part of the Academic Health Sciences Center at ETSU, which also includes Colleges of Medicine, Nursing, Public Health, and Clinical and Rehabilitative Health Sciences. ETSU enrolls 14,600 students and is located in Johnson City, a family-friendly community in beautiful northeast Tennessee. Additional information about the ETSU College of Pharmacy can be found at http://www.etsu.edu/pharmacy/post_grads/.

Application:

Qualified applicants should submit their application materials through the online application process (PhORCAS), including a letter of intent, curriculum vitae, and three letters of recommendation.

Additional information can be obtained by contacting:

Katelyn Alexander, PharmD
Associate Professor & Director, Community Pharmacy Residency Program
ETSU Gatton College of Pharmacy, Box 70657, Johnson City, TN 37614
