

### Standard Day Class Times

The length of class periods is determined by dividing the minimum required teacher/student contact time by the number of class meetings in each session. The minimum required lecture contact time is 750 minutes per hour of credit. Classes with a laboratory component will always exceed the minimum (and is usually at least double the minimum) time for lecture only classes. The ETSU calendar and standard class periods are designed to ensure that 3 credit hour courses will meet the minimum teacher/student contact hours for a given term.
