Our Mission

- To advocate for students individually and collectively in order to ensure the university’s continuing focus on students
- To develop an affirming campus environment for all students that challenges the community to model respect, caring, honesty, and openness in a manner that honors the value and inclusion of all individuals and groups
- To promote student involvement and active exploration through the creation of educationally purposeful programs, activities, and environments
- To facilitate and support the lifelong pursuit of knowledge through meaningful, creative and innovative experiences that connect students’ academic and co-curricular learning
- To provide intentional and innovative development and management of human, technological, and fiscal resources
- To support the personal development and growth of every student to enhance self awareness, physical and psychological well-being, honest and open communication, leadership, and integrity
