

Daily Home Screening for Students

Parents: Please complete this short screening each morning before your child leaves for school.

In an effort to protect the health and safety of our children and community, if you answered yes to any of the below questions, you will need to keep your child home and monitor symptoms. Please contact your School Nurse for additional guidance regarding when your student can return to school.

SECTION 1: Symptoms

	Temperature 100.4 degrees Fahrenheit or higher when taken by mouth
	Sore throat
	New uncontrolled cough that causes difficulty breathing (for students with chronic allergic/asthmatic cough, a change in their cough from baseline)
	Diarrhea, vomiting, or abdominal pain
	New onset of severe headache, especially with a fever

SECTION 2: Close Contact/Potential Exposure

	Had close contact (within 6 feet of an infected person for at least 10 minutes) with a person with confirmed COVID-19
	Traveled to or lived in an area where the local, Tribal, territorial, or state health department is reporting large numbers of COVID-19 cases as described in the Community Mitigation Framework
	Live in areas of high community transmission (as described in the Community Mitigation Framework) while the school remains open
