

Second Grade Newsletter

Friday, January 10, 2020

Dear Families,

We have had a great week! We have worked so hard and I'm so proud of every second grader coming back ready to learn with a great attitude.

In Discovery we have been working on USA geography and researching about different states in the USA. We have almost finished up our Google Slide Presentations about our states. Next week we will finish this up and we will move into a unit about the government.

In Math we have been reviewing subtracting large numbers with regrouping. This week we learned how to "subtract across zeros" and we have been doing a fantastic job with this. Next week we will wrap this up and move into our money unit.

In Language Arts we have been working on Wordly Wise, writing New Year's resolutions, journal writing, and reading a variety of texts. We also finished up the book James and the Giant Peach by Roald Dahl. We then watched the movie today and compared and contrasted the two. It was a lot of fun!

☺ Dr. Kelli

Questions to Ask Your Child:

- Tell me some facts about the state you are researching.
- What is subtracting across zeros and when do you do it?
- How did James and the Giant Peach end?
- How are the book and the movie similar and different?

Announcements:

- We will be out of school on Monday, January 20th and February 3rd.
- Thank you so much for the donations to help reorganize our classroom library! It's going to be a big project. We appreciate your generosity.
