

Second Grade Self-Paced Spelling Information

Today the first spelling lists and choice boards for home practice will come home.

Here is what you need to know.

- The lists will start simple and build in difficulty as students move through them.
- Students will come home with a Choice Board to complete for their current list. They should complete two activities on the Choice Board and check those off. They should then sign the form and a parent should also sign the form. When the Choice Board is returned they will take the “show you know” for that list and if they do well they will be given a new list. They will repeat this process.
- The date the Choice Board is sent home will be at the top of the form. The preference is for these to come back within a week. Sometimes students need more time and that is okay, but please communicate that with me. Students who don’t return Choice Boards in a normal amount of time and that haven’t had a parent communicate more time is needed will be asked to spend some of their free time working on them at school.
- Students may return Choice Boards early and take their “show you knows” as they turn them in. They will get a new list of words as they do this.
- A report showing how they did on the “show you know” will come home along with a list of any missed words. If your child missed a word please practice this word with them at home. We will do the same at school.
- Occasionally students may be asked to repeat a list if I feel they need more practice with several of the words.
- I am sending home the reports for the first two spelling “show you knows” we took as we were practicing the process so that you can see what those look like. We practiced these words at school. The first list that the Choice Board is coming home for is list 3. They will take the list 3 “show you know” when they return the list 3 Choice Board.
- Please let me know if you have questions and concerns.
