

Five Minute Fairytale Reality Film Festival Rubric

Group

Members: _____

_____ **Introduction (15 points)**

The introduction is well-organized. It gives the reader/viewer relevant information about the film. It narrows the fairytale to something that can be thoroughly explained within the time and space restraints of the project. Paragraphing, spelling, grammar, and mechanics are mostly correct.

_____ **Videos/Annotations (25 points)**

Video is carefully chosen and presents a variety of representations of the reality fairytale. Annotations go beyond the obvious aspects of the video and try to relate them in a meaningful way to the overall fairytale of the project. All links are presented in text form. Spelling, grammar, and mechanics are mostly correct.

_____ **Creative Aspects and Documentation (10 points)**

The idea of the project (the fairytale stems from a true historical event) is realistic in its depiction. The "documentation" appears factual, seems carefully chosen, and reflects real and helpful resources for those seeking more information. All links are presented in text form. The descriptions, while brief, are useful to readers/viewers. Spelling, grammar, and mechanics are mostly correct.
