SCIENCE CAMP AT BAYS MOUNTAIN PARK!

New to Bays Mountain, a science camp for children ages 12-16. Collaborating with ETSU faculty and staff, the park is offering your child a chance to participate in two weeks full of scientific analysis, studies, and programs where they will learn about natural history, flora, fauna, ecosystems and more by researching, collecting, and identifying terrestrial and aquatic life at the park. They will also help in caring for the native, captive inhabitants of the park. They will visit the Gray Fossil Site and Clinch River with the help of the parents. Carpooling is encouraged to these sites and we will provide a list of those parents who are willing to do so.

Tuition of the camp is \$195 per child per week. The camp consists of two weeks (June 12-23), including the weekend in between those weeks.

Science camp hours are 9:00 AM until 5:00 PM daily. Campers should dress comfortably for the outdoors and bring a bag lunch and drink with them daily. We will have a brief meeting the first day to go over the schedule and activities with the parents, so please be prepared to stay.

We look forward to seeing you at camp!!!

Session dates

June 12-23

(Includes the weekend in between)

9:00 AM until 5:00 PM daily

If enrolling more than one child, please make copies of the application

Science Camp Application

Camper's Name _____

Address _____

City/State/Zip _____

Phone # _____ Emergency Phone # _____

Dr.'s Name _____ Dr.'s Phone # _____

Enroll in carpool roster? yes _____ no _____

Visa/MasterCard/Discover # _____ Expiration date _____

Signature of card holder _____

My child has no physical condition which will limit his/her ability in day camp activities. In case of emergency, you have my permission to take my child to the hospital.

Please attach a description of any allergies to medications, food, stings or insect bites your child has including medication that must be administered.

Signature of Parent or Guardian: _____ Date: _____
