

Biome Project Rubric

For this project, you may choose one of the biomes from chapter 4 and complete an advertisement about that biome. You may use any app on the ipads. The ad must include the important information about that biome listed in the textbook (climate, precipitation, etc.). When you finish, save your project using your name as the filename, and email the project to tadlockd@etsu.edu. The project will be graded according to the following rubric:

Information Category	Points Earned	Points Possible
Precipitation		5
temperature		5
representative plants		5
representative animals		5
soil description		5
trip activities (fun things to do)		5
Effectiveness of presentation media		5
Total		35
